# Index

## **1. Introduction**

## **2. Legend of additional facilities**

## **3. Dispatching tracks provided by DB InfraGO AG**

# 1. Introduction

The following overview contains the dispatching tracks offered by the DB InfraGO AG. To the use of these tracks it can be necessary in individual cases to use other feeding switches or tracks. For reasons of clarity these are not a component of the following composition. For more information contact the Customer Management at the DB InfraGO AG Regional Units.

The kind of the binding shows the current binding from an account-technical view. There may be changes due to adaptations of the operational processes. As an infrastructure operator, DB InfraGO AG is permanently concerned with the maintenance and optimization of quality and circumference of her service facilities. Hence, the usage of service facilities may be limited for constructional reasons. In this case our contacts make alternative installations available to you.

Our contact persons are available for further information in the regional areas of DB InfraGO AG:

[www.dbinfrago.com/contacts](http://www.dbinfrago.com/contacts).

## **Important information:**

To use the new "smart shore power supply" (ELS), you need a company-specific access option. In addition, the electricity supply contract is still mandatory. For this purpose, please contact DB Energie GmbH at the e-mail address [elektranten.dbenergie@deutschebahn.com](mailto:elektranten.dbenergie@deutschebahn.com).

## 2. Legend of additional facilities

| <b>Abbreviation</b> | <b>Description</b>                         |
|---------------------|--|
| BPG                 | stationary brake testing                   |
| DKLS                | system compressed air unit                 |
| DKLSS               | compressed air unit, 230 V                 |
| ELEK                | shore power supply                         |
| ELS                 | smart shore power supply                   |
| INRA                | interior cleaning facility                 |
| WVS/WVD             | weighbridge                                |
| WAFS                | water filling facility                     |
| WCEA                | toilet effluent disposal unit              |
| ESTH                | ancilla                                    |
| DRSH                | turntable                                  |
| MEDI                | media locker                               |
| OLI                 | oil transfer facility                      |
| ZV50                | electric train preheating system 50 Hz     |
| ZV16                | electric train preheating system 16 2/3 Hz |
| BESA                | sand filling system                        |
| BUEH                | work and cleaning stage                    |
| TAM                 | containment sump / cushion system          |
| TAW                 | containment sump                           |

### 3. Dispatching tracks provided by DB InfraGO AG
