

Expected traffic flows capacity strategy 2028

Legend

1 path per hour		1 path per 2 hours		1 path per 4 hours		Train parameters	
							Planned speed in km/h, max. length in meters; and only for freight max. weight in ton (1000kg)
Long distance / High speed passenger train		Regional (express) passenger train		Freight train			V140: 400m
							V140: 230m
							V120: 690m; 2700t

Expected capacity utilisation	
	All requests might be met
	Changes might be necessary
	High demand expected
